EXPERIENCE

Marketing Architect & Creative Strategist with 15+ years at the intersection of brand narrative and systems thinking. Former Microsoft Lead responsible for commercializing AI (Copilot) and transforming browser perception (Edge). Recently developed a proprietary **Productized Strategy Ecosystem**, combining React-based diagnostic tools with integrated campaign frameworks. I don't just build campaigns; I build the engines that run them.

Principal & Systems Architect | Luis Gilberto Ecosystem

2024 – Present | Seattle, WA

- Architected a proprietary digital platform ("The Hub" & "Portal") shifting consulting from hourly service to **productized intelligence**.
- Developed **StrategyIQ**, a React-based diagnostic engine that automates brand health auditing and generates strategic roadmaps.
- Codified the "Trinity Framework" (Strategist, Storyteller, Orchestrator) to align cross-functional teams and streamline campaign execution.

Sr. Integrated Marketing Lead – Microsoft Edge / Copilot

Feb 2022 – Present | Redmond, WA

- Led brand transformation of Microsoft Edge from "shopping browser" to "AI-powered browser" through strategic narrative repositioning.
- Crafted global narratives for Copilot in Edge, translating complex AI features into tangible consumer benefits.
- Directed seasonal campaigns and produced channel toolkits driving engagement and adoption across 30+ global markets.

Sr. Integrated Marketing Lead – Microsoft 365 Suite

Dec 2016 – Feb 2022 | Redmond, WA

- Developed 360° integrated marketing plans across the Microsoft 365 and Office portfolio.
- Directed GTM strategy for Teams personal use and launched the "Free to be Free" pandemic campaign for productivity apps.
- Owned end-to-end creative direction across paid, owned, and earned media channels.

Marketing Manager – Worldwide Retail Channel

Mar 2012 – Dec 2016 | Redmond, WA

- Developed GTM strategies for 3+ global campaigns/year across Windows, Surface, and HoloLens hardware.
- Managed \$2M+ annual budget and established KPI tracking frameworks to ensure measurable retail partner impact.

IMPACT PILLARS

- Productized Intelligence:** Architected a proprietary marketing OS (React/Next.js) that automates strategic discovery, reducing client onboarding time by 60% while increasing diagnostic accuracy.
- AI Commercialization:** Orchestrated global GTM for Microsoft Copilot, translating complex LLM capabilities into human-centric narratives driving adoption across 30+ markets.
- Scale & Efficiency:** Deployed a \$2M+ annual budget to drive 40% YoY app adoption, utilizing the 'Trinity Framework' to align data-driven media buying with high-impact storytelling.
